MANAGEMENT'S DISCUSSION AND ANALYSIS

As Management of the Southern Worcester County Educational Collaborative, we offer readers of the Collaborative's financial statements this narrative overview and analysis of financial activities of the Collaborative for the fiscal year ended June 30, 2015. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our basic statements and notes to the basic statements.

Financial Highlights

The liabilities of the Southern Worcester County Educational Collaborative exceeded its assets at the close of the fiscal year by \$(2,872,201) (net position). Of this amount, \$124,483 is invested in capital assets, net of related debt. The deficit in net position is a result of an Other Postemployment Benefits (OPEB) obligation liability in the amount of \$3,016,905.

The total assets of the Collaborative are \$749,246, of which \$624,763 are current assets.

The total revenues of the Collaborative for fiscal 2015 were \$8,895,268, an increase of \$578,864 (6.5%) over fiscal 2014.

The total expenses of the Collaborative for fiscal 2015 were \$9,209,108, a decrease of \$22,039 (0.245%) over fiscal 2014.

The overall financial position of the Collaborative is declining. The change in net position for the fiscal year amounts to a decrease of \$313,840 (10.93%). This was principally from recording the OPEB liability.

Overview of Financial Statements

This overview is intended to serve as an introduction to the Collaborative's basic financial statements. The Collaborative's basic financial statements consist of three components: 1) government-wide financial statements; 2) fund financial statements; and 3) notes to the financial statements.

Governmental-Wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the Collaborative finances, in a manner similar to a private sector business.

The statement of net position presents information on all of the Collaborative's assets and liabilities, with the difference between the two reports as net position. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the Collaborative is improving or deteriorating.

The statement of activities presents information showing how the Collaborative's assets changed during the most recent fiscal year. All changes in net position are reported as the underlying event giving rise to the change occurs, regardless of timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods.

Both of the government-wide financial statements distinguish functions that are principally supported by member tuitions and intergovernmental revenues (government activities). The governmental activities include general government, pension benefits, property and liability insurance, employee benefits, claims and judgments, and interest.

Fund Financial Statements

A fund is a grouping of related accounts or a single account that is used to maintain control over resources that have been segregated for specific activities or objectives. Fund accounting is used to ensure and demonstrate compliance with finance-related legal requirements. All of the funds are governmental funds.

Governmental Funds

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balance provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The Southern Worcester County Educational Collaborative adopts an annual appropriated budget for its general fund. A budgetary comparison schedule has been provided for the general fund to demonstrate compliance with this budget. The basic governmental fund financial statements can be found on pages 7 through 12.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 13 through 30 of this report.

Financial Analysis of Governmental Funds

As noted earlier, the Collaborative uses fund accounting to ensure and demonstrate compliance with local, state and federal requirements.

Governmental Funds – The focus of the Collaborative governmental funds is to provide information on near-term inflows, outflows and balances of spendable resources. Such information is useful in assessing the Collaborative’s financial requirements. In particular, undesignated fund balance may serve as a useful measure of the Collaborative’s net resources available for spending at the end of the fiscal year.

General Fund Budgetary Highlights

Actual revenues were \$8,436,486, over budget by \$31,688, primarily due to other income being more than anticipated. Actual expenditures were \$8,371,964, under budget by \$32,834, primarily in administrative and transportation costs.

Government-Wide Financial Analysis

	2015	2014	Change	%
Cash	\$ 469,392	\$ 444,933	\$ 24,459	5.50%
Other current assets	155,371	127,374	27,997	21.98%
Capital assets	124,483	148,485	(24,002)	-16.16%
Total assets	749,246	720,792	28,454	3.95%
Current liabilities	595,542	607,608	(12,066)	-1.99%
OPEB obligation	3,016,905	2,662,545	354,360	13.31%
Other liabilities	9,000	9,000	-	0.00%
Total liabilities	3,621,447	3,279,153	342,294	10.44%
Restricted net assets	-	-	-	
Net investment in capital assets	124,483	148,485	(24,002)	-16.16%
Unrestricted net assets	(2,996,684)	(2,706,846)	(289,838)	10.71%
Total net assets	\$ (2,872,201)	\$ (2,558,361)	\$ (313,840)	12.27%
Charges for services	\$ 3,456,406	\$ 3,092,320	\$ 364,086	11.77%
Tuitions	4,918,815	4,771,990	146,825	3.08%
Operating grants and contributions	458,782	390,945	67,837	17.35%
Member dues	60,000	60,000	-	0.00%
Investment earnings	1,265	1,149	116	10.10%
Operating expenses	9,209,108	9,231,147	(22,039)	-0.24%
Changes in net assets	\$ (313,840)	\$ (914,743)	\$ 600,903	-65.69%

As noted earlier, net position may serve over time as a useful indicator of a government’s financial position. Governmental liabilities exceeded assets by \$(2,872,201) at the close of FY15, a decrease of \$314,840 (10.93%). As previously noted, \$3,016,905 is attributable to the recording of the OPEB liability as required by GASB 45.

Fiscal Year 2016

The Collaborative has appropriated a balanced annual budget of \$7,478,030 for FY2016. The Collaborative anticipates that revenue and expenses will be in line with the current fiscal year.

Requests for Information

This financial report is designed to provide a general overview of the Southern Worcester County Educational Collaborative purpose and financial position. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Business Office at the Southern Worcester County Educational Collaborative, P. O. Box 517, Southbridge, MA 01550.

Bruce D. Norling, CPA, P.C.

INDEPENDENT AUDITORS' REPORT

To the Board of Directors
Southern Worcester County Educational Collaborative
Dudley, Massachusetts

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Southern Worcester County Educational Collaborative (the Collaborative) as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the Collaborative's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Collaborative as of June 30, 2015,

Bruce D. Norling, CPA, P.C.

and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis; schedule of revenues, expenditures and changes in fund balances – budget and actual – general fund; retiree health plan funding progress; schedule of the collaborative's proportionate share of the net pension liability; and schedule of pension contributions on pages 1 through 4 and pages 31 through 34 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Collaborative's basic financial statements. The supplementary Information Required by MGL Chapter 40 Section 4E on page 35 is presented for purposes of additional analysis and is not a required part of the financial statements. This supplementary information has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated December 11, 2015, on our consideration of the Collaborative's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the Collaborative's internal control over financial reporting and compliance.

Bruce D. Norling, CPA, P.C.

**SOUTHERN WORCESTER COUNTY EDUCATIONAL COLLABORATIVE
NOTES TO THE BASIC FINANCIAL STATEMENTS
JUNE 30, 2015**

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. General Statement

The Southern Worcester County Educational Collaborative (the Collaborative) is an educational collaborative established under Massachusetts General Laws, Chapter 40, Section 4E and Board of Education policy and an agreement between School Committees of the Towns of Auburn, Grafton, Leicester, Millbury, Oxford, Northbridge, North Brookfield, Southbridge, Sutton, Uxbridge, Webster, the Dudley-Charlton Regional School District, the Quaboag Regional School District, the Spencer-East Brookfield Regional School District, and the Tantasqua/Union 61 Regional School District. The Collaborative was formed in 1975 with the purpose of analyzing and implementing programs and services for school-age children with special needs when such programs and services are best served by a collaborative effort.

The accounting and reporting policies of the Collaborative relating to the funds included in the accompanying basic financial statements conform to accounting principles generally accepted in the United States of America applicable to state and local governments.

The Collaborative has adopted GASB Statement No. 62, *Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements*, which establishes guidance for applying standards established in Financial Accounting Standards Board (FASB) statements and interpretations to the preparation of financial statements for proprietary fund activities. In accordance with GASB Statement No. 62, the Collaborative complies with and observes all FASB statements and interpretations that were issued on or before November 30, 1989, unless they conflict with GASB pronouncements.

Adoption of New Accounting Pronouncements: In June, 2012, the GASB issued GASB Statement No. 68, *Accounting and Financial Reporting for Pensions – An Amendment of GASB Statement No. 27*. This Statement establishes standards for measuring and recognizing liabilities, deferred outflows of resources, and deferred inflows of resources, and expense/expenditures related to pensions. For defined benefit pensions, this Statement identifies the methods and assumptions that should be used to project benefit payments, discount projected benefit payments to their actuarial present value, and attribute that present value to periods of employee service. Note disclosure and required supplementary information requirements about pensions also are addressed.

SOUTHERN WORCESTER COUNTY EDUCATIONAL COLLABORATIVE
NOTES TO THE BASIC FINANCIAL STATEMENTS
JUNE 30, 2015

B. Financial Reporting Entity

The Collaborative's basic financial statements include the accounts of all Collaborative operations. The criteria for including organizations as component units within the Collaborative's reporting entity, as set forth in Section 2100 of GASB's *Codification of Governmental Accounting and Financial Report Standards*, include whether:

- The organization is legally separate (can sue and be sued in their own name)
- The Collaborative holds the corporate powers of the organization
- The Collaborative appoints a voting majority of the organization's board
- The Collaborative is able to impose its will on the organization
- The organization has the potential to impose a financial benefit/burden on the Collaborative
- There is fiscal dependency by the organization on the Collaborative

Based on the aforementioned criteria, The Southern Worcester County Educational Collaborative has no component units.

C. Basis of Presentation

Government-Wide Financial Statements

The government-wide financial statements (the statement of net position and the statement of changes in net position) report information on all of the activities of the Collaborative.

The statement of activities demonstrates the degree to which the direct expenses of a given program are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific program. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given program and 2) operating or capital grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Member tuition and other items not properly included among program revenues are reported instead as general revenues.

Fund Financial Statements

The Collaborative segregates transactions related to certain functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Separate statements are presented for

SOUTHERN WORCESTER COUNTY EDUCATIONAL COLLABORATIVE
NOTES TO THE BASIC FINANCIAL STATEMENTS
JUNE 30, 2015

governmental and proprietary activities. These statements present each major fund as a separate column on the fund financial statements; all non-major funds are aggregated and presented in a single column.

Governmental funds are those funds through which most governmental activities typically are financed. The measurement focus of governmental funds is on the sources, uses and balance of current financial resources. The Collaborative has presented the following major governmental funds:

General Fund – This fund is the main operating fund of the Collaborative. It is used to account for all financial resources not accounted for in other funds. All member tuitions and other fees that are not restricted by law or contractual agreement to some other fund are accounted for in this fund. General operating expenditures, insurance and benefits and other costs that are not paid through other funds are paid from the General Fund. The general fund is always considered a major fund.

Nonmajor governmental funds consist of other special revenue, capital projects and permanent funds that are aggregated and presented in the nonmajor governmental funds column on the governmental funds financial statements. For example, a special revenue fund is used to account for the proceeds of specific revenue sources (other than capital projects or permanent funds) that are restricted by law or administrative action to expenditures for specified purposes. The Collaborative determined it has no nonmajor governmental funds.

D. Net Position

Net position represents the difference between assets and liabilities. Net position invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for the acquisition, construction or improvements of those assets, and adding back unspent proceeds. Net position is reported as restricted when there are limitations on their use either through the enabling legislations adopted by the Collaborative or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

E. Fund Balance

Fund balance is divided into five classifications based primarily on the extent to which the Collaborative is bound to observe constraints imposed upon the use of the resources in the governmental funds. The classifications are as follows:

SOUTHERN WORCESTER COUNTY EDUCATIONAL COLLABORATIVE
NOTES TO THE BASIC FINANCIAL STATEMENTS
JUNE 30, 2015

Nonspendable – The nonspendable fund balance category includes amounts that cannot be spent because they are not in spendable form, or legally or contractually required to be maintained intact. The “not in spendable form” criterion includes items that are not expected to be converted to cash. It also includes the long-term amount of interfund loans.

Restricted – Fund balance is reported as restricted when constraints placed on the use of resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or is imposed by law through constitutional provisions or enabling legislation (Massachusetts General Laws or Collaborative Agreement).

Enabling legislation authorizes the Collaborative to assess, levy, charge, or otherwise mandate payment of resources (from external resource providers) and includes a legally enforceable requirement that those resources be used only for the specific purpose stipulated in the legislation. Legal enforceability means that the Collaborative can be compelled by an external party, such as citizens, public interest groups, or the judiciary to use resources created by enabling legislation only for the purpose specified by the legislation.

Committed – The committed fund balance classification includes amounts that can be used only for the specific purposes imposed by formal action (ordinance or resolution) of Collaborative Board. Those committed amounts cannot be used for any other purpose unless the Collaborative Board removes or changes the specified use by taking the same type of action (ordinance or resolution) it employed to previously commit those amounts. In contrast to fund balance that is restricted by enabling legislation, committed fund balance classifications may be redeployed for other purposes with appropriate due process. Constraints imposed on the use of committed amounts by Collaborative Board, separate from the authorization to raise the underlying revenue; therefore, compliance with these constraints is not considered to be legally enforceable. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

Assigned – Amounts in the assigned fund balance classification are intended to be used by the Collaborative for specific purposes but do not meet the criteria to be classified as restricted or committed. In governmental funds other than the General Fund, assigned fund balance represents the remaining amount that is not restricted or committed. In the General Fund, assigned amounts represent intended uses established by Collaborative Board, a Collaborative official delegated that authority by the Collaborative Agreement or ordinance.

SOUTHERN WORCESTER COUNTY EDUCATIONAL COLLABORATIVE
NOTES TO THE BASIC FINANCIAL STATEMENTS
JUNE 30, 2015

Unassigned – Unassigned fund balance is the residual classification for the General Fund and includes all spendable amounts not contained in the other classifications. In other governmental funds, the unassigned classification is used only to report a deficit balance resulting from overspending for specific purposes for which amounts had been restricted, committed, or assigned.

The Collaborative applies restricted resources first when expenditures are incurred for purposes for which either restricted or unrestricted (committed, assigned, and unassigned) amount are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the restricted fund balance classifications could be used.

F. Measurement Focus/Basis of Accounting

Measurement focus refers to what is being measured; basis of accounting refers to when revenues and expenditures are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurement made, regardless of the measurement focus applied. The government-wide statements and fund financial statements for proprietary funds are reported using the economic resources measurement focus and the accrual basis of accounting.

The economic resources measurement focus means all assets and liabilities (whether current or non-current) are included on the statement of net position and the operating statements present increases (revenues) and decreases (expenses) in net total position. Under the accrual basis of accounting, revenues are recognized when earned, including unbilled water and sewer services which are accrued. Expenses are recognized at the time the liability is incurred.

Governmental fund financial statements are reported using the current financial resources measurement focus and are accounted for using the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual; i.e., when they become both measurable and available. “Measurable” means the amount of the transaction can be determined and “available” means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period.

The Collaborative considers revenues as available if they are collected with 60 days after year end. A one- year availability period is used for recognition of all other Governmental Fund revenues. Expenditures are recorded when the

SOUTHERN WORCESTER COUNTY EDUCATIONAL COLLABORATIVE
NOTES TO THE BASIC FINANCIAL STATEMENTS
JUNE 30, 2015

related fund liability is incurred. However, debt service expenditures, as well as expenditures related to compensated absences, early retirement costs, claims and judgments are recorded only when payment is due. The revenues susceptible to accrual are tuitions, program service fees, reimbursable income, interest income and intergovernmental revenues. All other governmental fund revenue is recognized when received.

G. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

H. Cash and Investments

Cash of all funds, including restricted cash, are pooled into common pooled accounts in order to maximize investment opportunities. Each fund whose monies are deposited in the pooled cash accounts has equity therein, and interest earned on the investment of these monies is allocated based upon relative equity at month end.

An individual fund's pooled Cash and Cash Investments are available upon demand and are considered to be "cash equivalents" when preparing these financial statements. In addition, any marketable securities not included in the common pooled accounts that are purchased with a maturity of ninety days or less is also considered being "cash equivalents".

All investments are recorded at fair value based on quoted market prices. Fair value is the amount at which a financial instrument could be exchanged in a current transaction between willing parties.

I. Inventories of Supplies

Supplies are considered to be expenditures at the time of purchase and are not included in the statement of net assets as inventories.

J. Interfund Receivable and Payables

Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances".

SOUTHERN WORCESTER COUNTY EDUCATIONAL COLLABORATIVE
NOTES TO THE BASIC FINANCIAL STATEMENTS
JUNE 30, 2015

K. Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Massachusetts State Employees' Retirement System (MSERS) and Massachusetts Teachers' Retirement System (MTRS) and additions to/deductions from MSERS' and MTRS' fiduciary net position have been determined on the same basis as they are reported by MSERS and MTRS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

L. Longevity Stipends

Professional and Para-Professional can be compensated for longevity after 10 years of employment. For Governmental Funds, vested or accumulated longevity stipends that are expected to be liquidated with expendable available financial resources are reported as expenditures and fund liabilities.

M. Encumbrances and Continuing Appropriations

Encumbrance accounting, under which purchase orders, contracts and other commitments for fund expenditures are recorded in order to reserve portions of the applicable appropriation, is employed in the governmental funds. Open encumbrances at year-end are reported as reservations of fund balances since they do not constitute expenditures or liabilities.

N. Transactions Between Funds

Legally authorized transfers are treated as interfund transfers and are included in the results of operations of both Governmental and Proprietary Funds.

O. Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets, are reported in the applicable governmental or business-type activities columns in the government-wide financial statements and in the fund financial statements for proprietary funds. All capital assets are valued at historical cost or estimated historical cost if actual historical is not available. Donated assets are valued at their fair market value on the date donated. Repairs and maintenance are recorded as expenses. Renewals and betterments are capitalized. Interest has not been capitalized during the construction period on property, plant and equipment.

SOUTHERN WORCESTER COUNTY EDUCATIONAL COLLABORATIVE
NOTES TO THE BASIC FINANCIAL STATEMENTS
JUNE 30, 2015

Assets capitalized, not including infrastructure assets, have an original cost of \$2,000 or more and over one year of useful life. Depreciation has been calculated on each class of depreciable property using the straight-line method. Estimated useful lives are as follows:

Leasehold Improvements	15 Years
Furniture and Equipment	5-10 Years

P. Claims and Judgments

Estimated losses from judgments and claims are recorded in the Government-Wide financial statements as a liability and as an expense if the loss is probable and amounts can be reasonably estimated.

Q. Reconciliation of Government-Wide and Fund Financial Statements

A summary reconciliation of the difference between total fund balances as reflected on the governmental funds balance sheet and total net position for governmental activities as shown on the government-wide statement of net position is presented in an accompanying schedule to the governmental funds balance sheet. The asset and liability elements, which comprise the reconciliation difference, stem from governmental funds using the current financial resources measurement focus and the modified accrual basis of accounting while the government-wide financial statements use the economic resources measurement focus and the accrual basis of accounting.

R. Allowance for Uncollectible Accounts

The allowance for uncollectible accounts is estimated based on historical trends and specific account analysis. At June 30, 2015, no allowance for doubtful accounts has been reported as management feels accounts receivable are all collectible.

2. DEPOSITS AND INVESTMENTS

State and local statutes place certain limitations on the nature of deposits and investments available to the Collaborative. Deposits (including demand deposits, term deposits and certificates of deposit) in any one financial institution may not exceed certain levels without collateralization or insurance protection by the financial institutions involved. Investments can be made in securities unconditionally guaranteed by the U.S. Government with maturities of 90 days or less which are collateralized by such securities. The Collaborative also has the authority to purchase units in the Massachusetts Municipal Depository Trust (MMDT), a pooled fund managed for the Commonwealth.

SOUTHERN WORCESTER COUNTY EDUCATIONAL COLLABORATIVE
NOTES TO THE BASIC FINANCIAL STATEMENTS
JUNE 30, 2015

The Collaborative has expanded investment powers, including the ability to invest in equity securities, corporate bonds and other specified investments in relation to the Collaborative's restricted investments in the Permanent Funds.

The Collaborative maintains a cash and investment pool that is available for use by all funds with unrestricted cash and investments.

Deposits – Custodial Credit Risk

Custodial credit risk for deposits is the risk that, in the event of a bank failure, the Collaborative's deposits may not be recovered. The Collaborative does not have a policy for custodial credit risk of deposits. As of June 30, 2015, all of the Collaborative's bank accounts were fully insured by the FDIC up to \$250,000 and the balance insured by the DIF, leaving \$0 of the Collaborative's bank balance of \$243,000 as uninsured or uncollateralized and, therefore, exposed to custodial credit risk.

Custodial Credit Risk – Investments

Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty, the Collaborative will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The Collaborative does not have a policy for custodial credit risk of investments.

Interest Rate Risk of Debt Securities – Investments

Interest rate risk of debt securities for investments is the risk that changes in interest rates of debt securities will adversely affect the fair value of an investment. The Collaborative does not have a policy for interest rate risk of debt securities.

Credit Risk of Debt Securities – Investments

Credit risk of debt securities for investments is the risk that an issuer or other counterparty to a debt security will not fulfill its obligation. The Collaborative does not have a policy for credit risk of debt securities.

3. PENSION PLANS

The Collaborative sponsors two retirement plans for its employees.

Massachusetts State Employees' Retirement System

Plan Description and Provisions

**SOUTHERN WORCESTER COUNTY EDUCATIONAL COLLABORATIVE
NOTES TO THE BASIC FINANCIAL STATEMENTS
JUNE 30, 2015**

The Collaborative provides pension benefits for substantially all employees except certain administrative employees, professional employees and teachers, through the Massachusetts State Employees' Retirement System (MSERS), a cost sharing multiple-employer defined benefit plan established under the Massachusetts Contributory Retirement Law. Benefit provisions and contribution requirements are established by state law.

MSERS provides retirement benefits up to a maximum of 80% of a member's highest three-year average annual compensation. Benefit payments are based upon member's age, length of creditable service, level of compensation, and group classification.

Members of the system become fully vested after 10 years of creditable service. A retirement allowance may be received upon reaching age 65 or upon attaining twenty years of service. The Plan also provides for early retirement at age 55 if the participant (1) has a record of 10 years creditable service, (2) was on the Collaborative payroll after January 1, 1978, (3) voluntarily left Collaborative employment on or after that date, and (4) left accumulated annuity deductions in the Fund.

The MSERS issues a publicly available financial report in accordance with guidelines established by the Commonwealth's Public Employee Retirement Administration Commission.

Contributions

Plan members are required to contribute to the MSERS at rates ranging from 5% to 11% of their annual covered compensation, on a pre-tax basis. The Collaborative is required to contribute at an actuarially determined rate that is apportioned among employees based on active current payroll. The contribution requirements of plan members are established and may be amended by the MSERS Board of Trustees. The Collaborative's current contribution rate is 5.6%.

<u>Hire Date</u>	<u>% of Compensation</u>
Prior to 1975	5% of regular compensation
1975 – 1983	7% of regular compensation
1984 to 6/30/1996	8% of regular compensation
7/1/1996 to present	9% of regular compensation
1979 to present	An additional 2% of regular compensation in excess of \$30,000

Annual Pension Cost

The Collaborative's required and actual contributions to MSERS were \$194,361. Pension expense to the Commonwealth of Massachusetts for the Collaborative amounted to \$345,872. Therefore, \$151,511 is reflected as revenues and corresponding expenditures in the Collaborative's financial statements for the

**SOUTHERN WORCESTER COUNTY EDUCATIONAL COLLABORATIVE
NOTES TO THE BASIC FINANCIAL STATEMENTS
JUNE 30, 2015**

portion of the Commonwealth's pension expense not required to be paid by the Collaborative. Collaboratives contribute amounts equal to the normal cost of employees' benefits at a rate established by the Public Employees' Retirement Administration Commission (PERAC), currently 5.6% of covered payroll. Legally, the Collaboratives are only responsible for contributing the annual normal cost of their employees' benefits (i.e., the present value of the benefits earned by those employees in any given year) and are not legally responsible for the past service cost attributable to those employees or previously retired employees of the Collaboratives. The Commonwealth as a nonemployer is legally responsible for the entire past service cost related to the Collaboratives.

Massachusetts Teachers' Retirement System, a Noncontributing Employer Plan

Plan Description and Provisions

Certain employees of the Collaborative participate individually in a contributory retirement plan administered by the Massachusetts Teachers' Retirement Board. Benefit provisions and contribution requirements are established by state law. Eligibility requirements for participation are as follows:

- The employees must be employed on at least a half-time basis in a contracted professional position within the public school system located in Massachusetts.
- The employee must be certified by the Massachusetts Department of Education for a position which requires certification.

The Massachusetts Teachers' Retirement System (MTRS) issues a publicly available financial report.

Contributions

Participation in the plan requires that members contribute a fixed percentage of their compensation each pay period depending upon the date of employment. Employee contributions vest immediately. After 10 years of service, employee benefits become fully vested. After 20 years, or upon having attained the age of 55 with at least 10 years of service, employees are eligible to receive benefits under the plan. Benefits are based on the average of the three highest-salaried years of the employee service and are determined in a manner similar to the provisions of MSERS.

<u>Hire Date</u>	<u>% of Compensation</u>
Prior to 1975	5% of regular compensation
1975 – 1983	7% of regular compensation
1984 to 6/30/1996	8% of regular compensation
7/1/1996 to present	9% of regular compensation
7/1/2001 to present	11% of regular compensation (for teachers hired after

SOUTHERN WORCESTER COUNTY EDUCATIONAL COLLABORATIVE
NOTES TO THE BASIC FINANCIAL STATEMENTS
JUNE 30, 2015

1979 to present 7/1/01 and those accepting provisions of Chapter 114 of the Acts of 2000)
An additional 2% of regular compensation in excess of \$30,000

The Collaborative has no obligation to contribute to the MTRS. All pension benefits and expenses paid by the Teachers' Retirement Board to employees of the Collaborative are funded by the Commonwealth of Massachusetts. Pension expense to the Commonwealth of Massachusetts for the Collaborative amounted to \$307,271 in fiscal 2015 and this amount is reflected as revenues and corresponding expenditures in the Collaborative's financial statements.

Pension Liabilities and Pension Expense

The Collaborative is considered to be a special funding situation as defined by GASB Statement No. 68, *Accounting and Financial Reporting for Pensions* and the Commonwealth of Massachusetts is a nonemployer contributing entity for MTRS and MSERS. Therefore, the Collaborative is required to disclose, but not record, the portion of the nonemployer contributing entities' share of the collective net pension liability that is associated with the employer. The Collaborative's proportion and proportionate share of the pension plans' net pension liability is disclosed in the supplemental schedule on page 33.

As a special funding situation, the Collaborative must recognize its portion of the collective pension expense as both a revenue and pension expense. As indicated above, for the year ended June 30, 2015, the Collaborative recognized pension expense and revenue of \$151,511 (MSERS) and \$307,271 (MTRS).

For both MSERS and MTRS, the net pension liability was measured as of June 30, 2014 and the total pension liability used to calculate the net pension liabilities were determined by actuarial valuations as January 1, 2014 rolled forward to June 30, 2014.

The Collaborative's proportion of the net pension liability was based on a projection of the Collaborative's long-term share of contributions to the pension plan relative to the projected contributions of all participating school districts and the State, actuarially determined. At January 1, 2014, the Collaborative's proportion was 0.065% for MSERS and 0.0278% for MTRS.

Actuarial assumptions. The total pension liability in the January 1, 2014 actuarial valuations for MSERS and MTRS were determined using the following actuarial assumptions, applied to all periods included in the measurement:

- 1.(a) 8.0% investment rate of return, (b) 3.5% interest rate credited to the annuity savings fund and (c) 3.0% cost of living increase per year.

**SOUTHERN WORCESTER COUNTY EDUCATIONAL COLLABORATIVE
NOTES TO THE BASIC FINANCIAL STATEMENTS
JUNE 30, 2015**

2. Salary increases are based on analyses of past experience but range from 3.5% to 9.0% (MSERS) and 4.0% to 7.5% (MTRS) depending on group and length of service.
3. Mortality rates were as follows:
 - Pre-retirement - reflects RP-2000 Employees table projected 20 years (MSERS) and 22 years (MTRS) with Scale AA (gender distinct)
 - Post-retirement - reflects Healthy Annuitant table projected 15 years (MSERS) and 17 years (MTRS) with Scale AA (gender distinct)
 - Disability - the mortality rate is assumed to be in accordance with the RP-2000 Table projected 15 years (MSERS) and 17 years (MTRS) with Scale AA (gender distinct) set forward 3 years for males.

Investment assets of MSERS and MTRS are with the Pension Reserves Investment Trust (PRIT) Fund. The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future rates of return are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future rates of return by the target asset allocation percentage. Best estimates of geometric rates of return for each major asset class included in the PRIT Fund's target asset allocation as of June 30, 2014 are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Global Equity	43%	7.2%
Core Fixed Income	13	2.5
Hedge Funds	10	5.5
Private Equity	10	8.8
Real Estate	10	6.3
Value Added Fixed Income	10	6.3
Timber/Natural Resources	4	5.0
Total	<u>100%</u>	

Discount rate. The discount rate used to measure the total pension liability was 8%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rates and the Commonwealth's contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rates. Based on those assumptions, the net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

**SOUTHERN WORCESTER COUNTY EDUCATIONAL COLLABORATIVE
NOTES TO THE BASIC FINANCIAL STATEMENTS
JUNE 30, 2015**

Sensitivity of the Collaborative's proportionate share of the net pension liability to changes in the discount rate. The following presents the Collaborative's proportionate share of the net pension liability calculated using the discount rate of 8 percent, as well as what the Collaborative's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentagepoint lower (7 percent) or 1-percentage point higher (9 percent) than the current rate:

Collaborative's proportionate share of the net pension liability	1% Decrease (7%)	Discount Rate (8%)	1% Increase (9%)
MTRS	\$5,633,295	\$4,422,722	\$3,394,389
MSERS	\$7,041,515	\$4,863,877	\$2,994,675

Pension plan fiduciary net position. Detailed information about the pension plan's fiduciary net position is available in the separately issued financial report.

4. LONG-TERM OBLIGATIONS

Transactions for the year ended June 30, 2015 are summarized as follows:

	<u>Balance July 1</u>	<u>Issues or Additions</u>	<u>Payments or Expenditures</u>	<u>Balance June 30</u>	<u>Due Within One year</u>
<u>Governmental Type Activities</u>					
Longevity Stipends	\$ 9,000	\$ -	\$ -	\$ 9,000	\$ -
Total Governmental Activities	<u>\$ 9,000</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 9,000</u>	<u>\$ -</u>

5. CAPITAL ASSETS

Capital asset activity for the year ended June 30, 2015 was as follows:

	<u>Beginning Balance</u>	<u>Increases</u>	<u>Decreases</u>	<u>Ending Balance</u>
Governmental Activities:				
Capital assets, being depreciated				
Leasehold improvements	\$ 179,181	\$ -	\$ -	\$ 179,181
Furniture and equipment	<u>418,708</u>	<u>-</u>	<u>261,539</u>	<u>157,169</u>
Total capital assets, being depreciated	<u>597,889</u>	<u>-</u>	<u>261,539</u>	<u>336,350</u>
Less accumulated depreciation for:				
Leasehold improvements	80,142	11,945	-	92,087
Furniture and equipment	<u>369,262</u>	<u>12,057</u>	<u>261,539</u>	<u>119,780</u>

**SOUTHERN WORCESTER COUNTY EDUCATIONAL COLLABORATIVE
NOTES TO THE BASIC FINANCIAL STATEMENTS
JUNE 30, 2015**

Total accumulated depreciation	<u>449,404</u>	<u>24,002</u>	<u>261,539</u>	<u>211,867</u>
Total capital assets, being depreciated, net	<u>148,485</u>	<u>24,002</u>	<u>-</u>	<u>124,483</u>
Governmental activities capital, assets net of accumulated depreciation	<u>\$ 148,485</u>	<u>\$ 24,002</u>	<u>\$ -</u>	<u>\$ 124,483</u>

Depreciation expense is not allocated to programs of the primary government but is shown as a separate line item in the statement of activities.

6. CONTINGENCIES

Amounts received or receivable from grantor agencies are subject to audit and adjustments by the grantor agencies. Any disallowed claims, including amounts already collected, may constitute a liability of the Collaborative. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the Collaborative expects such amounts, if any, to be immaterial.

7. LEASE COMMITMENTS

The Collaborative rents classrooms and administrative office space at several locations. Rent expense under these leases was \$435,133 for the year ended June 30, 2015.

The Collaborative leases vans for transporting students. For the year ended June 30, 2015, expense under these leases was \$187,718. The Collaborative also leases office equipment. Expense under these leases amounted to \$8,794 for the year ended June 30, 2015.

Future lease commitments are as follows:

Fiscal	Equipment	Vans	Space	Total
2016	5,945	119,729	429,696	549,425
2017	6,486	64,159	405,696	469,855
2018	540	1,396	202,848	204,244
Total	12,971	185,284	1,038,240	1,223,524

8. RISK FINANCING

The Collaborative is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; workers compensation claims; errors and omissions; and natural disasters for which the Collaborative carries commercial insurance.

**SOUTHERN WORCESTER COUNTY EDUCATIONAL COLLABORATIVE
NOTES TO THE BASIC FINANCIAL STATEMENTS
JUNE 30, 2015**

9. POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS

Plan Description – The Collaborative provides health insurance coverage for its retirees and their survivors (hereinafter referred to as the “Plan”) as a single-employer defined benefits Other Post Employment Benefit (OPEB) plan. Chapter 32B of the Massachusetts General Law (MGL) assigns authority to establish and amend benefit provisions. Changes to plan design and contribution rates must be accomplished through the collective bargaining process. The Plan does not issue a standalone financial report since there are no assets legally segregated for the sole purpose of paying benefits under the Plan.

The number of participants as of July 1, 2012, the latest actuarial valuation, is as follows:

Active employees	143
Retired employees and beneficiaries	<u>6</u>
Total	<u>149</u>

Funding Policy – The contribution requirement of the Plan and the Collaborative is established by the Board of Directors. The current required health insurance contribution rates of Plan members and the Collaborative are 50% and 50%, respectively. The Collaborative currently contributes enough money to the Plan to satisfy current obligations on a pay-as-you-go basis.

Annual OPEB and NET OPEB Obligation – The Collaborative’s annual OPEB cost (expense) is calculated based on the annual required contribution (ARC) of the employer, an actuarially determined amount that is calculated in accordance with the parameters set forth in GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years. The components of the Collaborative’s annual OPEB cost for the year, the amount actually contributed to the plan, and changes in the Collaborative’s net OPEB obligation are summarized in the following table:

Normal cost	\$ 249,561
Amortization of unfunded actuarial accrued liability	252,669
Interest on OPEB obligation	106,502
Other adjustments	<u>(158,278)</u>
Annual OPEB Cost	450,454
Employer Contributions	<u>96,094</u>
Increase in net OPEB obligation	354,360
Net OPEB obligation, beginning of year	<u>2,662,545</u>
Net OPEB obligation, end of year	<u>\$ 3,016,905</u>

**SOUTHERN WORCESTER COUNTY EDUCATIONAL COLLABORATIVE
NOTES TO THE BASIC FINANCIAL STATEMENTS
JUNE 30, 2015**

Trend information regarding annual pension cost, the percentage of the annual pension cost contribution and the net pension obligation is as follows:

Fiscal Year Ended	Annual OPEB Cost	Percentage of Annual OPEB Cost Contributed	Net OPEB Obligation
6/30/15	450,454	21.30%	3,016,905
6/30/14	425,649	19.92%	2,662,545
6/30/13	736,722	7.04%	2,680,133
6/30/12	714,235	4.61%	1,995,255
6/30/11	687,138	3.11%	1,313,951
6/30/10	657,601	1.43%	648,176

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples included assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future.

Actuarial Methods and Assumptions – Projections of benefits for financial reporting purposes are based on the substantive Plan (the Plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and Plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculation. The significant methods and assumptions as of the latest actuarial valuation are as follows:

Valuation date:	July 1, 2012
Actuarial cost method:	Projected Unit Credit
Amortization method:	Projected Unit Credit
Remaining amortization period:	26 years
Interest discount rate:	4%
Healthcare/medical cost trend rate:	5% per year

10. EVALUATION OF SUBSEQUENT EVENTS

The Collaborative has evaluated subsequent events through December 11, 2015, the date the financial statements were available to be issued.

**SOUTHERN WORCESTER COUNTY EDUCATIONAL COLLABORATIVE
 NOTES TO THE BASIC FINANCIAL STATEMENTS
 JUNE 30, 2015**

11. FUND BALANCES

Fund balance is classified as nonspendable, restricted, committed, assigned and/or unassigned based primarily on the extent to which the Collaborative is bound to observe constraints imposed upon the use of the resources in the governmental funds. The constraints placed on fund balance for the major governmental funds and all other governmental funds are presented below:

<u>Fund Balances</u>	<u>General</u>	Nonmajor Governmental Funds	<u>Total</u>
<u>Committed to:</u>			
OPEB Reserve	<u>50,000</u>	<u>-</u>	<u>50,000</u>
<u>Unassigned:</u>	<u>(20,779)</u>	<u>-</u>	<u>(20,779)</u>
 Total Fund Balances	 <u>\$ 29,221</u>	 <u>\$ -</u>	 <u>\$ 29,221</u>

Notes to schedule:

The Board of Directors annually determines the amount to be raised (after deducting the amount of anticipated revenues from other sources, including surplus revenue, if any) to maintain and operate the Collaborative during the next fiscal year and then, based upon enrollment data, assesses the member and non-member districts in accordance with the terms of the agreement. An annual budget is adopted for the general fund in conformity with the guidelines described above. The original fiscal year 2015 approved budget for the general fund was \$8,404,798. The above schedule presents a comparison of budgetary data to actual results. The General Fund utilizes the same basis of accounting for both budgetary purposes and actual results. Deficits, if any, are raised in the subsequent year's budget process.

The Collaborative prepares its annual budget on a basis (budget basis), which differs from generally accepted accounting principles (GAAP basis). The budget and all transactions are presented in accordance with the Collaborative's method (budget basis) in the above schedule to provide meaningful comparison of actual results with budget.

Reconciliation of the budget basis to the GAAP basis is provided below:

	Revenue	Expenditures	Excess (Deficit)
Budget basis	8,436,486	8,371,964	64,522
Depreciation	-	24,002	
Recognized on-behalf pension payments	458,782	458,782	
Increase in OPEB liability	-	354,360	
GAAP Basis	8,895,268	9,209,108	(313,840)

Schedule Presentation

This schedule is intended to present information for 10 years. Until a 10-year trend is compiled, information is presented for those years for which information is available.

Contributions

The Collaborative is required to pay an annual appropriation as established by the Public Employees' Retirement Administration Commission (PERAC) for MSERS. No contribution is required for MTRS. The Commonwealth of Massachusetts as a nonemployer is legally responsible for the entire past service cost related to the collaborative and therefore has a 100% special funding situation.

SOUTHERN WORCESTER COUNTY EDUCATIONAL COLLABORATIVE

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Board of Directors
Southern Worcester County Educational Collaborative
Dudley, Massachusetts

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Southern Worcester County Educational Collaborative, and the related notes to the financial statements, which collectively comprise the Collaborative's basic financial statements and have issued our report thereon dated December 11, 2015.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Collaborative's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Collaborative's internal control. Accordingly, we do not express an opinion on the effectiveness of the Collaborative's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Collaborative's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the organization's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the organization's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Bruce D. Norling, CPA, P.C
